## Network Box & Originex Singapore sign partnership agreement

Teams of Originex and Network Box

ORIGINEX (SINGAPORE) PTE LTD (OS) is part of the Malaysian Group Originex and was established in 2010 to meet the needs of the ever growing Singaporean market. OS offers a comprehensive range of systems and network products and services.

### 16th December 2014

Network Box announces a partnership agreement where Originex (OS) will become one of the Network Box authorized Distributors and Resellers in Singapore, offering comprehensive cyber security to SME's.

"We are glad that we are now able to provide our clients 24/7 security protection to give them even greater peace of mind that their business is well protected, in spite of a mounting number- and more intelligent cyber attacks"

**Gene Lim**

Managing Director, Originex Singapore

"The ability to pre-empt a new attack before it becomes a major problem is a tremendous advantage. As soon as a server update is ready, all our systems, regardless of their location or threat exposure, will be made current within 45 seconds. The greater the delay, the greater the potential for damage. All this happens automatically and transparently to the customer. Working with OS gives us an opportunity to bring these benefits to a greater range of clients"

**Jan van Leersum**

Managing Director, Network Box Singapore
